Thank you for using &and COMFY HOTEL. It's been cold these days and we are missing the warmth already. In this issue, we share some information on the unique bar that is very close to our hotel!

Drink even in the daytime! BROADWAY'S BAR

You can find the bar in the basement of a small building on the Okus street, which is only four minutes away from our hotel. It somehow has an old Japanese vibe and feels so comfortable. The owner, Mr. Yokota,

has a bar in Ginza, Tokyo too and opened this new one in his hometown, Kumamoto in October. He recommends Don nacho (¥1350), tequila, -based cocktail with the scent of limes. The tequila is made by an agave farm. They only use the

good parts of agaves. For a snack, you should try Avocado with autumn seaweed from Kumamoto(¥700). Seaweed boiled in soy sauce goes well with the softness of avocados. Even if you are not a fan of alcohol, you enjoy the bar because they have a fancy mocktail! The grape saltlick (¥850) is made of grape juice directly from a farm in Yamagata and Salt sprinkled on the glass brings out of its natural sweetness. Whether you are an alcohol person or not, enjoy the drinks and have a good time!
